Subject: Systems Administrator Opening at Southern Star Central Gas Pipeline in Owensboro, KY

Good morning, Mark –

WKU CIT alum here. We have an opening at [Southern Star Central Gas Pipeline](#) in Owensboro, KY for a Systems Administrator.

I have been here for nearly 8 years since graduating from the CIT program. It is a great place to work and Owensboro is a great place to live. We have one of the most mature and forward-thinking IT organizations in this region in my opinion. Although candidates should follow the link below to apply, this would be a position working in the same group as me and I can answer any informal questions about the details of the position.

Would you please consider forwarding this posting?
