Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

Students entering the Doctor of Psychology in Applied Psychology program must have earned a master's degree in Clinical Psychology or an educational specialist's degree in School Psychology prior to admission in the program. Because students enter with two years of graduate work, it is expected that they will complete the program in three years, plus one year of pre-doctoral internship.
